# **QSS Advanced Reporting Platform (QARP)**

## **A Free QSS Webinar**

**To:** QSS/OASIS users interested in Financial, Human Resources and Payroll reporting

Information System Department

**(Please copy and distribute this notice as appropriate)**

**From:** ***Quintessential School Systems***

---

---

On **Tuesday, July 26, 2011**, from 10:00 to 11:30 a.m. Pacific Time, **QSS** will present a free online seminar to introduce participants to the new QSS Advanced Reporting Platform (QARP) product, which offers powerful ad hoc reporting of QSS/OASIS human resources, finance and payroll data via a web-based interface. Using Jaspersoft's business intelligence software, power users can build sophisticated, print-ready, complex reports and ad hoc queries without having to rely on programmers or other technology staff. Attend this "webinar" to see samples of what can be done with QARP, and to see QARP in action.

A high-speed internet connection is required to view the video portion of the webinar and a phone line is needed to hear the audio portion.

This session will focus on the less technical aspects of creating custom reports with QARP, but technical information of interest to system administrators will also be presented.

An additional software license fee and training by **QSS** is required in order to implement QARP. Although development on QARP continues, it is available for installation now.

---

---

**If you wish to participate in this workshop, please respond with a completed registration form (on the next page) no later than Monday, July 11, 2011. Since QSS is offering this webinar tuition-free, no purchase order is required.** Thank you.
